

k-love radio has been a very inspirational station in my area due to the type of music played. It provides a web page that can be accessed. They cover the local area with christian activities that cannot or are not mentioned by other radio stations or newspapers in the area. The public needs an inspirational station like K-love. K-love has been a blessing to me in that there were no other christian music stations available. Please allow k-love to stay on the air on 96.3 FM wxky and not be replaced by any other stations. Thank you
